

KIDS! COMPUTERS! FUN!

The LIBRARY is one of 23 Illinois libraries offering an innovative program for 5th – 8th grade students called Project Next Generation.

Applications are being accepted for students to participate in this statewide mentoring program designed to help students with computer and Internet training. You will learn to use software, digital cameras, design WebPages, and more!

Classes will meet twice a week on one weekday after school and on Saturdays beginning in January and ending in April.

If you are a 5th through 8th grader, you may be eligible to participate in this exciting program. Priority will be given to kids who do not have access to computers or the Internet at home.

Space is limited, so sign up soon. For more details, visit or call the library.

**It's All
About Kids!**

**Jesse White
Secretary of State**

This is a free program for eligible students.

What is Project Next Generation?

Project Next Generation is a program sponsored by Jesse White, Secretary of State and State Librarian. It is designed to give students a chance to have hands-on experience with the latest technology.

Students meet at the public library to participate in lots of different activities that center on technology tools such as computers, digital cameras, scanners and wireless keyboards. Mentors are always present and plan activities and offer assistance and support any time it is needed. Project Next Generation is full of friendly faces, exciting activities, and is meant to be fun!

For more information about Project Next Generation, please visit the web site at:
