## EDI Depositor Electronic Documents of Illinois [edillinois.org](http://edillinois.org)

December 2009

### Find-It! Illinois Interface

The new Find-It! Illinois interface is now public and focuses on government documents. A link to state agencies in the lower-right corner continues to link to the Metadata Generator. If you have suggestions to improve this Web page, please use the Feedback link.

### PDF Files

PDF has become the preferred electronic file format. However, image PDF files are not compliant with state and federal accessibility laws. Also, image PDF files cannot be updated to newer software versions when necessary. Therefore, please mention to the appropriate person that PDF files are legally compliant only if they have security enabled so they cannot be changed, are searchable, and are able to be copied.

For more information on the Illinois Information Technology Accessibility Act and how it may apply to your Web site, please visit [www.dhs.state.il.us](http://www.dhs.state.il.us).
